

BERKLEY HIGH SCHOOL

SCIENCE GRADUATION REQUIREMENT*

9TH GRADE

**BIOLOGY OF THE
LIVING EARTH**

10TH GRADE

**CHEMISTRY IN THE
EARTH SYSTEM**

11TH GRADE

**PHYSICS OF THE
UNIVERSE**

Students may also earn their third Science credit through a personal curriculum by

participating in designated Oakland Schools Technical Campus (OSTC) programs during their junior and/or senior year.

Colleges and universities recommend that students take 4 years of Science in high school. Additionally, many colleges and programs require specific courses as prerequisites for admission. Students should always consult with their counselor and admissions websites when selecting courses so that they align with their future college plans and intended fields of study. Additionally, students may choose to take more than one science course starting in their 11th grade year.

The following courses are also offered through Berkley High School and may be taken in addition to the above requirements: AP Biology, AP Chemistry, AP Environmental Science, AP Physics, Forensic Science, Honors Anatomy & Physiology, Honors Zoology and Organic Chemistry.
